Overview

You can study Japanese in the middle of Tokyo

“yu-yu-jin” is located in Kanda Jimbocho, a world-famous used bookstore district. It is also famous for its many curry restaurants. Within a 30-minute walking distance from our school, there are Akihabara, the Imperial Palace, the Diet Building, event halls, baseball stadium, art galleries, and museums. Access is also very good. There are three subway lines. Although it is a bit of a walk, but it is also close to Suidobashi station on the JR line.
